Breast Reconstruction Surgery Benefits and Women’s Health and Cancer Rights Act of 1998

The Women’s Health and Cancer Rights Act (the “Women’s Health Act”) was signed into law in October of 1998. The Women’s Health Act amended the Employee Retirement Income Security Act of 1974 (ERISA) and the Public Health Service Act (PHS Act). This federal law requires group health plans to provide certain coverage for breast reconstruction following mastectomies. This coverage took effect on January 1, 1999.

If you or a dependent receives covered benefits for a mastectomy, you should know that the Women’s Health and Cancer Rights Act of 1998 provides for:

- Reconstruction of the breast(s) on which a covered mastectomy has been performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses and treatment of physical complications related to all stages of a covered mastectomy, including lymphedema (swelling). Prior Authorization is not applicable to such prostheses.

The manner in which services are provided is between you and your physician. Coverage is subject to all of the terms and conditions of your health plan, including any applicable deductible, copayment, and coinsurance. You may be entitled to additional benefits as mandated by state law.

Newborns’ and Mothers’ Health Protection Act of 1996

Group health plans and health insurance issuers generally may not, under federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under federal law, require that a provider obtain authorization from the plan or the issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Premium Assistance Under Medicaid and the Children’s Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you’re eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren’t eligible for Medicaid or CHIP, you won’t be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren’t already enrolled. This is called a “special enrollment” opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call **1-866-444-EBSA (3272)**.

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2019. Contact your State for more information on eligibility –
